

After Selecting The Windows Logo In The Bottom Right Corner, Select “Settings”.

(This Will Open The Settings Dialog)

In The Settings Dialog Select Apps.

(This Is Where You Will Find The Uninstall Option)

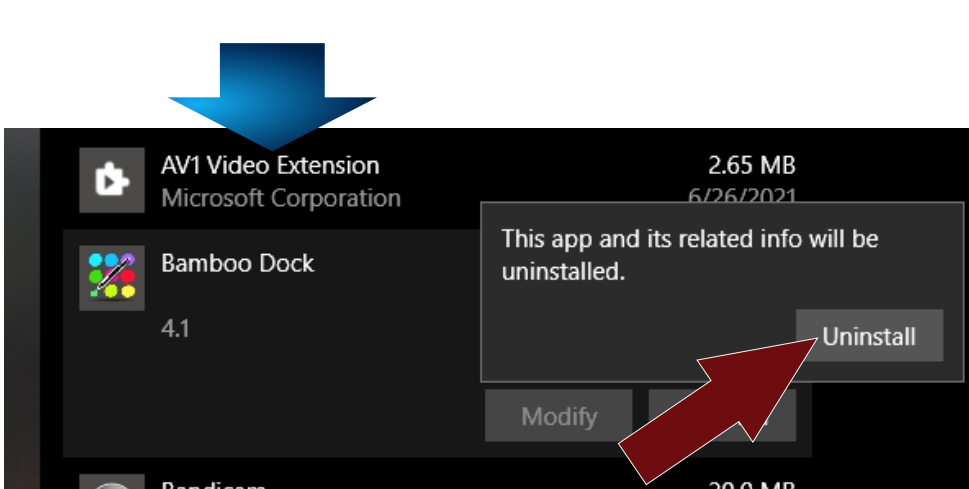

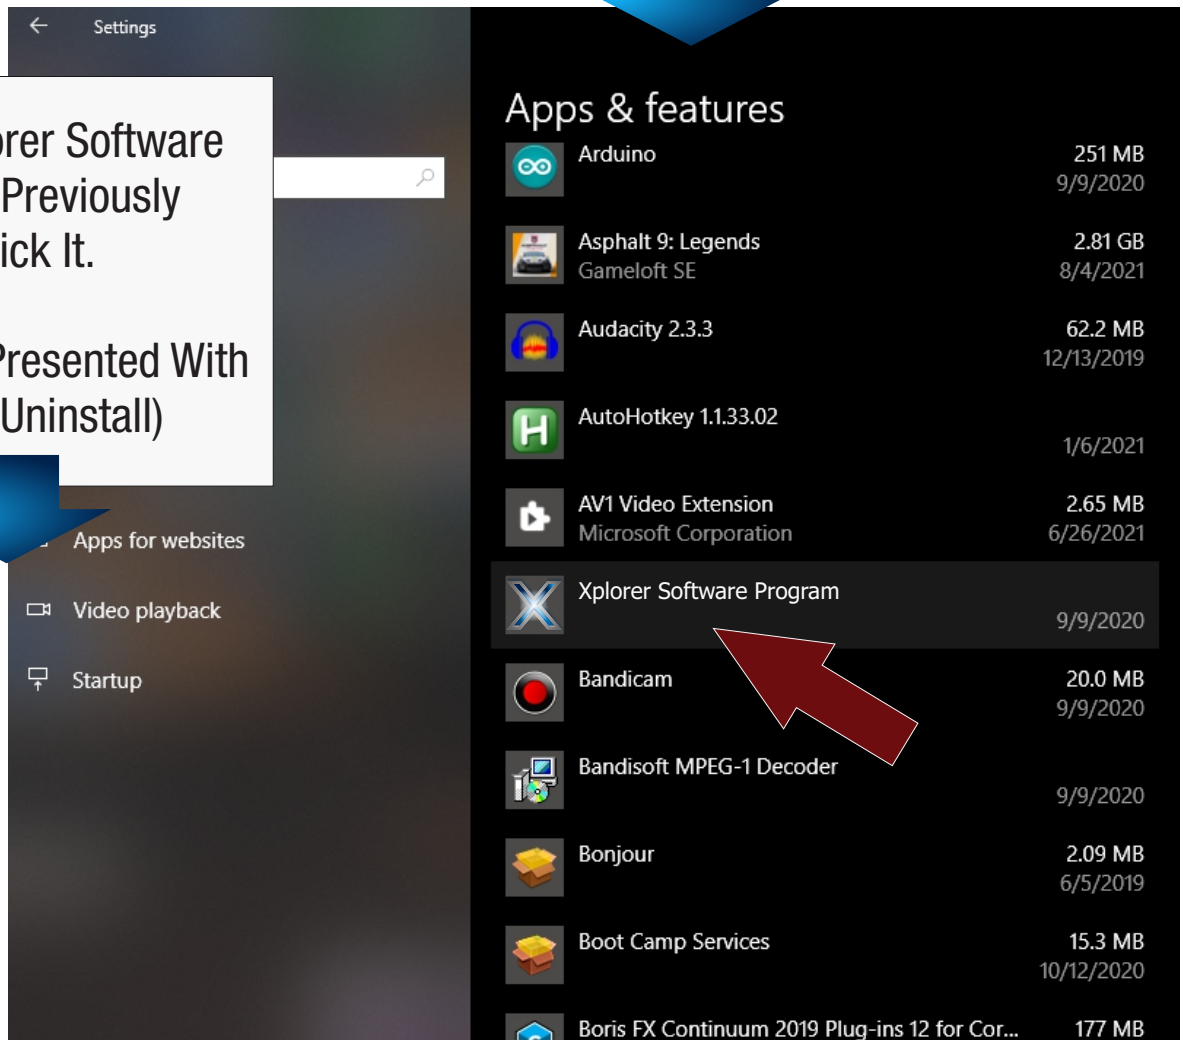

Uninstall Instructions Continued

Find The Xplorer Software Program You Previously Installed & Click It.

(You Will Be Presented With An Option To Uninstall)

Click Uninstall.

(This Will Take You Through A Series Of Dialogs That Will Remove All The Files Associated With The Xplorer Program)
